

ENVIRONMENT POLICY

U+I is driven to create great places which by definition deliver huge socio-economic gain with world-class sustainable regeneration.

It is the policy of U+I to undertake our operations and actions within an environmentally sound framework – with the environment, social benefits and good governance (ESG) at their heart.

Our policy is to:

- + Ensure that our staff and contractors act in accordance with our environment and our health and safety policy, in compliance with our sustainability requirements.
- + Continually strive to improve our environmental performance.
- + Set environmental objectives and targets and review our performance.
- + Maintain systems to detect deviations from our policy, management systems, objectives and targets and to respond with the appropriate corrective actions.
- + Ensure we maintain management systems to detect and prevent pollution in co-operation with the appropriate public authorities.
- + Assess, monitor and where possible reduce the impact of our activities on the local and general environment.
- + Reduce the environmental effects of material sourcing by evaluating the materials and the environmental performance by Consultants and Contractors engaged by the company.
- + Reduce waste and the consumption of resources (materials, fuel and energy) and ensure all unavoidable waste is, where possible, reused, recycled or disposed of responsibly.
- + Foster a sense of responsibility for the environment amongst our staff.
- + Advise our customers, where appropriate, on the best environmental practices associated with building and maintenance.
- + Comply with relevant environmental legislation and regulations.
